Vision

Provide students with rigorous and relevant academic coursework teamed with career and technology courses that will position them at the forefront of technology advances.

Mission

Provide students with an opportunity to combine the concepts of print and web media in order to utilize their communication skills to convey a message, become proficient with industry standard software, and collaborate effectively in a professional environment. Students will be prepared for entry level employment as well as entrance into related university majors. Rigorous and relevant academic coursework will be integrated into project based learning
