Academy of Web

and Digital Design

SEABREEZE HIGH SCHOOL

ACADEMY OF WEB AND DIGITAL DESIGN

MISSION

The Academy of Web and Digital Design provides students with rigorous and relevant academic coursework teamed with career and technology courses that will position them at the forefront of technology advances.

POSSIBLE CAREERS

- Web Designer
- Cyber Developer
- Advertising Design Agency
- Flyer, brochure & printing agency
- Fashion photography retoucher
- Modeling Agency
- Corporate Marketing or Publishing Departments

OVERVIEW

The Academy of Web and Digital Design provides students with the opportunity to combine concepts of print and web media in the creation of various printed materials and web sites to display work. Students will take Web Design and Digital Design courses where they will use industry standard software, and collaborate effectively in a professional environment. Students will be prepared for entry level employment as well as entrance into related university majors. Rigorous and relevant academic coursework will be integrated into project based learning.

VISION

The vision of the Academy of Web and Digital Design is to provide students with rigorous and relevant academic coursework teamed with career and technology courses that will position them at the forefront of technology advances

ADOBE CERTIFICATION

Adobe certification is a certificate, which validates your skills in Adobe software products. The Photoshop, Dreamweaver, and Flash ACE will help students enter into the graphic design industry and helps managers determine a prospective employee's knowledge and skill level in the Adobe technologies. The skills measured include working with Photoshop UI, painting and retouching, creating and using layers, working with selections, supporting video, etc.

GOAL

The goal of The Academy of Web and Digital Design is to develop community partnerships and to integrate curriculum across the content area.
